School-Issued Device Policies and Guidelines

Each student at Eastern Middle/High School will be assigned a school-issued device. The student will use the same device (identified by the device serial number) for the duration of their middle and high school career. As stated in the student user agreement, students must use and care for school devices responsibly and appropriately in the same way they care for devices in the school. Below are the guidelines and expectations for students using school-issued devices.

- Students will be financially responsible for devices if lost, stolen, or damaged beyond repair.
- Students will keep their assigned charger at home and are responsible for bringing their device to school fully charged each day.
- Students who lose or forget their device, or forget to charge their device, will not be able to take an additional device home. If a student loses or forgets their assigned device, students will complete assignments using alternative methods or materials.
- Students will also be assigned a device cover. Students must store and carry devices in provided covers at any time the device is not in use.
- Students are free to use personal devices at home and are not required to use a school-issued device when completing school work at home. (However, students are not permitted to bring personal devices to school at this time.)
- Students will turn in devices at the end of each school year for inventory and maintenance.
